PROPERTY DESCRIPTION

Welcome to one of the largest homes in the Plainview. From the moment you drive up the circular driveway and walk in the large, open tiled entry way you know you've found something special. There is nothing plain about the open family room with a 17 foot vaulted ceiling with master bedroom balcony overlooking the family room. You'll also find a Hugh floor to ceiling stone fireplace, built in book cases and wet bar in the great room. The home has been updated throughout. To the right of the entryway a living room with dental molding, recessed lighting and tray ceiling. The formal dining room can accommodate large furniture including the largest of hutches. The enormous Eat in Kitchen has beautiful hardwood floors, plenty of Oaks cabinets, planning desk, tiled countertops and stainless and black appliances. The laundry room is just off the kitchen. Upstairs you'll find a truly amazing master suite with large vaulted ceilings. The main bedroom could accommodate several king size beds (really you have to see the pictures). Then there's the attached master sitting room which is as big as most master bedrooms. There's another fireplace, and his and her closets in here as well. The master bathroom also has a whirlpool tub. There are 3 other really good sized bedrooms on the 2nd floor; one is currently being used as an office. Downstairs in the basement a finished family room big enough for ping pong, media room and entertaining. Out back a very large private backyard, a great place to relax with covered bench swing and large deck.
